In terms of colour application, the emphasis will be on yellow from now on. This means that we will refrain from using green or brown. However, the yellow must be used sparingly in relation to the communication.

Brand Tone

Let's separate the grimaces from the giggles, the frowns from the fun and the naysayers from the go-getters.

Grasshoppers is about feeling good, because when you feel good, you make those around you feel good.

Imagine everyone stepped into their day in the most comfortable shoes ever made – what a fantastic foundation set for an upbeat outlook.

Grasshoppers understand – there is nothing worse than starting out on the wrong foot.

We know there is more to life, but it's great to know that the first step on the journey to 'more', will be a comfortable one.
